Professional Summary

Software Engineer with over 3 years of experience specializing in full-stack web application development, Odoo ERP solutions, and data science. Proficient in Django, ReactJS, and Python, with strong database management and API integration skills. Experienced in data analysis, machine learning, and the use of libraries such as Pandas, TensorFlow, and Scikit-learn. Fluent in Arabic, French, and English, and passionate about building scalable, data-driven software solutions.

Technical Skills

Programming Languages: Java, C, PHP, Visual Basic, Python, R

Web Development: HTML5, CSS3, JavaScript, JQuery, TypeScript

Frameworks: Symfony, Angular, ReactJS, Bootstrap, Django, Flask

CMS: WordPress

ERP Systems: Odoo

Databases: MySQL, PostgreSQL, SQL Server, Oracle, MongoDB

Design: UML, Design Patterns

Data Exchange: REST, SOAP, API Integration

DevOps Tools: Docker, GitLab (CI/CD), GitHub

Python Libraries for Data Science: Pandas, NumPy, Matplotlib, Scikit-learn, Seaborn, NLTK, TensorFlow, BeautifulSoup

Data Science Concepts: Big Data, Business Intelligence, ETL, ELK, Machine Learning, Data Mining

Other Tools: Figma, Swagger API, Gantt, Microsoft Office, Photoshop

Professional Experience

Full Stack Engineer

Intech Solutions, Tunisia

July 2022 – Present

- **Risk Management Web Application – Ministry of the Interior:** Designed and implemented a web solution for managing organizational risks, built with **Django (Python)** and **React.js**. Optimized database operations using **PostgreSQL** and maintained efficient collaboration through **Git**-based version control.
- **Circuit Visa and Excursion Management System:** Developed a comprehensive platform for coordinating with travel agencies, the National Tourism Office, and the Ministry of Tourism. Built with **Django (Python)**, **JavaScript/jQuery**, and **Bootstrap**, integrated with **PostgreSQL** and **Oracle** databases, ensuring real-time interactivity and seamless data management.

- **Order Office Management Platform:** Designed and developed a dynamic web system for document and order tracking using **Django (Python)** and **React.js**. Enhanced usability through **Bootstrap**, optimized data storage with **PostgreSQL**, and ensured team synchronization with **Git**.
- **AI-Powered Healthcare Management Platform – “Elodox HMS”:** Developed a full-featured medical platform for managing appointments, consultations, examinations, pharmacies, laboratories, and medical records, integrating an intelligent chatbot powered by the **OpenAI API**. Utilized **Django (Python)**, **JavaScript/jQuery**, and **Bootstrap** with a **PostgreSQL** database. Deployed via **Docker** for a reliable production environment and achieved a 60% reduction in patient response time.
- **E-Learning Platform for Tourism Professionals:** Designed and implemented an on-line training system for agents in the tourism sector with interactive videos, using **Django (Python)**, **JavaScript/jQuery**, and **Bootstrap**. Managed data with **PostgreSQL** and ensured smooth deployment and scalability through **Docker**. Version-controlled all stages with **Git**.
- **“Climadiff” E-Commerce System:** Developed and maintained an online sales and inventory management system using **Odoo ERP**, enhancing operational efficiency and client experience.
- **Website Development:** Created and customized corporate and institutional websites using **WordPress CMS** and **Odoo ERP**, ensuring responsive design and optimized performance.

Personal Project – AI-Based Restaurant Management System *Independent Project, 2025*

- Designed and developed a full-stack restaurant management web application using **Node.js (Express)** and **Angular** with a **MongoDB** database.
- Integrated an **AI-powered predictive system** to forecast customer food orders based on historical purchasing data and time-based trends.
- Implemented role-based access (admin, staff, customer), order tracking, and automated stock updates.
- Improved resource management efficiency by 40% through predictive analytics and automated workflow design.

Technologies: Node.js, Angular, MongoDB, TensorFlow.js, REST API, Git

Final Year Project Intern – Data Science *Beja Regional Transport Company, Tunisia Mar 2021 – Aug 2021*

- **Customer Sentiment Analysis System:** Developed intelligent application analyzing customer feedback regarding public transportation services using advanced machine learning algorithms. Achieved 87% accuracy in sentiment classification across 10,000+ customer reviews.
- **Business Intelligence Dashboard:** Created dynamic visualization dashboards providing actionable insights to management team, leading to 25% improvement in service quality metrics and customer satisfaction scores.

- **Technical Documentation:** Authored comprehensive project requirements documentation and conducted thorough functional and technical analyses.

Key Technologies: Python (Pandas, NumPy, Scikit-learn, TensorFlow, NLTK), Flask, Data Visualization

Telemarketing Representative

Tregi Bizerta, Tunisia

Jul 2020 – Nov 2020

- Managed sales of cosmetic products in the European market.

Computer Scientist

Cap-Industry, Tunisia

Oct 2020 – May 2020

- Developed vendor and customer management applications using PHP, JQuery, and Bootstrap.
- Created the company website and designed marketing materials (logos, flyers, business cards).

Web Developer

SCC Globale, Tunisia

Jun 2018 – Sep 2020

- Created multiple corporate websites using WordPress CMS.

End-of-Study Project Intern

National Broadcasting Office, Tunisia

Feb 2018 – May 2018

- Designed and developed a TV transmission management system using Symfony3, JavaScript, and Bootstrap.

Education

Master's Degree in Data Science

University of Science of Bizerta, Tunisia

Dec 2021

Bachelor's Degree in Computer Science

University of Science of Bizerta, Tunisia

Jun 2018

High School Diploma

Ibn Mandhour Secondary School, Tunisia

Jun 2015

Certifications

Business Creation and Entrepreneurship Training (CEFE) – ANETI Tunisia

Mar

2022

Microsoft Office Specialist Certificate – Microsoft Online

Jun 2019

Languages

English: Fluent

French: Fluent

Arabic: Native

Strengths

- Strong teamwork and communication skills.
- Highly adaptable and quick learner.
- Strong project management and organizational abilities.
- Curious, analytical, and passionate about innovation.

Interests

Sports, Music, Reading
